

ALWAYS ON THE MOVE.

Driven by a philosophy of continuous improvement, we're always on the move towards World Class. While we are now the largest supplier of corporate branded baby diapers, our goal remains to be the best rather than the biggest. Our retail partners are enjoying the benefits of our continuous innovation, our supply chain advantages and our category management expertise.

Our business, like yours, is an ever changing series of challenges that are most effectively managed by embracing change and managing it proficiently. We are always on the move to find better and more effective ways to meet your needs and the needs of your customers.

We won't sit still and accept the status quo. Will you?
